

Alice's Song

A

Winter is creeping away
And the trees look young
I won't need your body
To keep me warm

Just move me
Move me

My soul is thawing out
My heart she starts to melt
Trying to find one thing
That I've never felt

To move me

Feel like a new born baby
Almost innocent
Full of the unknown
Just waiting to be spent

Something to move me

Don't give me popsicles
Don't give me words to rhyme
No rose colored glasses
I need a new pair of shoes

To move me
Move me

B instrumental break

C

Move me
like that photograph
of a lonely weathered face

Take me
beyond my mind
to some new or
has been place

Make me
a dance hall queen
in a honky tonk bar

Show me
the sky I haven't seen
with my friends
as the stars

Let me
draft away
with a new love
in my eyes

Move me
like the naked truth
of your sweet mortality.

Move me
